“La nostra collezione per Bisazza si basa sui principi del design biofilico, che ha ispirato il lavoro recente dello studio, con la creazione di spazi in armonia con la natura. I motivi creati in mosaico di marmo nascono dallo studio della geometria sacra, e dalla convinzione che tutta la natura sia tenuta insieme da un filo sottile. Rispettando l’equilibrio armonioso del linguaggio metafisico della natura, questi due pattern fanno entrare nell’intimo umano i ritmi del mondo esterno.”

“Our collection for Bisazza stems from the biophilic design principles which have defined the studio’s recent work, creating spaces that exist in tandem with nature. Patterns created in marble mosaics emerge from the study of sacred geometry and the belief that a subtle thread of unity exists throughout all nature. Through the harmonious balance found in this metaphysical language of nature, two unique patterns, at once striking and soothing, bring the rhythms of the outdoor world into the inner sanctum.”

"Nella mia collezione di mosaico di marmo celebro la storia affascinante delle residenze, degli alberghi, degli uffici e dei palazzi di Milano della prima metà del Novecento.

La mia fonte di ispirazione sono i rinomati architetti italiani, tra i quali Piero Portaluppi, Gio Ponti, Giovanni Muzio ed Emilio Lancia, i cui lavori hanno lasciato un'impronta indelebile nella storia dell'architettura milanese.

I loro disegni sofisticati sono esempio di eleganza e ispirazione, che hanno avuto un impatto significativo sul mio percorso creativo.

La collezione ne rappresenta dunque un omaggio, reinterpretando quel patrimonio iconografico in chiave contemporanea, preservandone bellezza ed eredità culturale".

"In my collection of marble mosaic, I celebrate the fascinating history of the residences, hotels, offices and buildings in Milan from the first half of the 20th century. My source of inspiration is the famous Italian architects including Piero Portaluppi, Gio Ponti, Giovanni Muzio and Emilio Lancia, whose works have left an indelible mark in the history of Milanese architecture.

Their sophisticated designs are an example of elegance and inspiration and have had a significant impact on my creative journey.

The collection is therefore a tribute to them, reinterpreting that iconographic heritage in a contemporary key, preserving its beauty and cultural heritage."

“Ho sempre amato il mosaico, fin dall’infanzia trascorsa esplorando le rovine romane o la Villa Kerylos in stile neo-greco antico in Francia.

Ho utilizzato il mosaico di vetro Bisazza in molte occasioni, e ho quindi accettato con entusiasmo di disegnare dei nuovi pattern in Marmosaico.

Ho ideato tre macro disegni geometrici che funzioneranno sia a pavimento che a parete, donando stile e ordine a qualsiasi interno.”

“I have always loved mosaic, from a childhood spent exploring Roman ruins and the Greek-style Villa Kerylos in France.

I have used Bisazza’s glass mosaics for everything from bathrooms to dining tables and so I was excited to be asked to design patterns using their Marmosaico.

I devised three large-scale geometric designs which will work brilliantly on floors and walls, giving instant style and order to any interior.”

HADDON GREEN

“Ispirato ad un tessuto siriano del 1300 circa, questo disegno prende il nome dall’antica residenza inglese di Haddon dello stesso periodo, e riporta un motivo dinamico fatto di angoli e stelle.”
